"Critical Grooming Theory"

When some people hear "groomer," they immediately apply a Western, individualistic lens. But they fail to realize that "grooming" is a systemic, structural problem deeply embedded in our "ways of knowing."

A thread. 1/

When I, as a Critical Gooming Theorist (CGT) say that all progressives are groomers, I'm not saying that they personally support grooming, as defined by the dictionary. I'm saying that they benefit politically from "systems of advantage" that harm children. 2/

Neil Shenvi @NeilShenvi · 19h
When a progressive is offended that he's called a "groomer," that is a symptom of "groomer fragility." He needs to sit with his discomfort and do the work to understand the lived experience of children and detrans folk who are harmed by systemic grooming. 3/

Neil Shenvi @NeilShenvi · 19h
A lot of progressives think there is a category of "not groomer." But one is either "groomer" or "anti-groomer." Being "not groomer" is just a way to perpetuate systemic grooming. 4/

Neil Shenvi @NeilShenvi · 19h
Grooming is one of many interlocking systems of oppression. One cannot be anti-groomer if one is a communist. One cannot be anti-groomer if one is a feminist. To be "anti-groomer" it to recognize the intersections of your communist, feminist, progressive privilege. 5/

Neil Shenvi @NeilShenvi · 19h
Superficial change is insufficient. CGT shows that systemic grooming has been baked into supposedly neutral, objective ideas like "expressive individualism," "identity," and "social justice" from our nation's founding. Dismantling it requires fundamental social transformation 6/

The first Mars colony will be communist. Not because NASA is secretly Marxist, but because communism is the only structure that makes any sense when your goal is keeping people fed, healthy, and happy.

Mars is already communist because there's no food and it's a barren wasteland.

I feel this report from Prussian cops spying on Marx. I feel it in my soul.

He leads the existence of a real bohemian intellectual. Washing, grooming and changing his linen are things he does rarely, and he likes to get drunk. Though he is often idle for days on end, he will work day and night with tireless endurance when he has a great deal of work to do. He has no fixed times for going to sleep and waking up. He often stays up all night, and then lies down fully clothed on the sofa at midday and sleeps till evening, untroubled by the comings and goings of the whole world.

"Kill judges. Behead judges. Roundhouse kick a judge into the concrete," read a post on a fringe website. "Slam dunk a judge's baby into the trashcan."

The threats fit into a predictable and familiar pattern, seen time and time again after legal developments against Trump. After the FBI searched Trump's Mar-a-Lago home in Florida, a man who had been at the U.S. Capitol on Jan. 6, 2021, attacked the FBI field office in Cincinnati with a nail gun while holding an AR-15-style rifle. PEAK RETARD

You won one side of the genetic lottery. The world is shit, but you're too fucking stupid to notice, so to you, the world is great. As long as you have tendies and crayons and mommy changes your diapers, life is a dream.

Towards 75-85 IQ points, you might even be able to get a wagie job to gain a modicum of independence and crayon money, like cashier or HR worker. It's a soul crushing job, of course, but you don't have one.

Great job. A+

NORMIE PURGATORY

You're a normie in a normie world. A tiepid in a world designed for the tiepid. You have no particular intelligence, no talents, and no ambitions that cannot be bought with a credit card. You feel a bit empty inside all the time, but you can still console yourself with the next capeshit or videogame or mediocre pussy. It's tolerable.

B-

SMUG HEAVEN

You won the game, you magnificent asshole. You're smart enough to exploit normies and retards but not so smart that it's crippling. Money and pussy will rain. A+++

INTROVERT HELL

You lost the game in the worst possible way, you sad piece of shit. You're smart enough to notice every little flaw in the world and in the people around you, all their pettiness and shittiness. All the world's lack of purpose and sense and fairness. And all you get from your keen insight is crippling depression. Your overactive imagination will paralyze you. You will overthink, overworry and underachieve. F-

AUTIST HYPERBOREAN

The world is shit and God is dead and rotting together with our ideals, that has been obvious to you since you were 6, but what do you care? You're blessed with an obsession. Be it physics, literature, philosophy or biology, you can lose yourself in the field you love and shut everything else out. The shit is real but can't touch you. You can truly excel. You will advance mankind without even really noticing. You just like doing it.

Joe Biden would increase refugees from terrorist nations by 700%. His plan would overwhelm your communities and turn Michigan, Minnesota, Wisconsin and the entire Midwest into a refugee camp. I am protecting your families and keeping Radical Islamic Terrorists OUT of our Country!

When you knock down three buildings with two planes to justify the invasion of israel's enemies and line the pockets of private companies like haliburton while the vice president is on the board of directors and then you need an excuse to invade another country which is not linked to that attack at all so you lie to the UN and the American people to invade iraq saying they have weapons of mass destruction which are never found but in researching the initial attack it turns out that the first country you originally blamed really didn't have anything to do with it either and all the actors are linked to either saudi arabia or israel and there is a literal thinktank policy paper stating that there needs to be a new pearl harbor to justify invading israel's enemies written in the 90s meanwhile your government's fiscal policy has become unlimited deficit spending and reduced interest rates and financial deregulation to recover from the dotcom crash and this leads to a housing bubble which reveals that your financial institutions are completely corrupt and have destroyed your banking industry through gambling away everyone's collective savings so you double down and print more money and drop the interest rate to ~0% and everyone gets mad and starts telling you to put the bankers in jail for destroying the economy through a combination of greed and incompetence but you print even more money and give it to the bankers who buy up and consolidate media to the point where they introduce identity politics to divide and conquer the "put bankers in jail" movement and relabel it as "end white oppression" but in 2014 a bunch of autistic gamers harass some slut for sleeping with video game jounalists for reviews and then your network of identity politics spewing feminists are linked back to your hedge fund manager do boy Soros and now people have realized why the "put bankers in jail" movement stopped but you own all the journalists already so news of this doesn't really spread so then they print even more money so banks can get back to owning everything but the wars you started have stalled and people have to be dying for you to make money selling weapons so you start color revolutions in the muslim world called the arab spring and you topple Gadaffi for being uppity and trying to start his own currency because if the rest of the world isn't buying their energy in dollars your corrupt economy based on cheap interest and printed money won't work, so you test out different revolution scenarios with respect to turning off the internet or leaving it on throughout the middle east and you say people are doing all of this for freedom and democracy but then Egypt elects the muslim brotherhood who don't like the US and Israel so they have a military coup so the egyptians can democratically elect the people you want them to, while this is going on you pass the Smith Mundt modernization act which allows the US government to use propaganda on its own citizens which is going to be convenient because your patsy's son is on the payroll of a Ukranian gas company which connects with the problem posed by russia selling gas to europe because russia would definitely be able to sell energy without using the dollar which is a major problem as your currency would be worthless if people weren't forced to use it to live, so in 2014 you stage a revolution in ukraine which also has gas and pipelines going into europe to create an alternative for europe to use in case something were to "accidentally happen" to the nordstream pipelines russia uses to get gas to europe, leading to a civil war in ukraine, and your department of state officials have their phone calls leaked discussing who they want in the new ukranian government and later on your patsy's son's emails are leaked and in may of 2014 he declines a golf invitation because he is "busy taking over ukraine" and none of this will ever be covered by the media even though this is documented and publicly available evidence that the president-to-be is corrupt because you made it legal to use government propaganda on US citizens and honest journalists commit suicide by shooting themselves twice in the back of the head but anyway this civil war happens where paramilitary groups terrorize the eastern half of ukraine which is majority russian and these groups set up on russia's border then your plans get delayed because some new york real estate agent gets elected president so you hold up his entire presidency with constant accusations and sham trials and accuse him of being a russian agent because russia is the only major country that can resist your efforts and them working together would be disastrous for your banking empire and then commit voter fraud to get your loyal patsy back in office but the retard real estate agent's policies weren't great for your scam banking empire so in august of 2019 the central bank of the United States, which is a private bank that you own, stars doing emergency liquidity loans to the tune of 4.5 trillion dollars and one month after this starts you have your bitch little billy gates join up with your WEF front organization and johns hopkins to wargame a pandemic where you hand out corona virus plushies and six months later in march of 2020 you roll out a media blitz about a global pandemic which has been fueled for the past three months by blurry "leaked" videos of people coughing up blood and dying in the street and piles of body bags from china and in march you also pass laws changing the reserve requirements banks have to hold to 0% so they no longer have to care about whether or not they have money since it's all printed and made up anyway and it only really has value because you have to have it to buy energy, so to make sure people will have to keep paying for energy constantly with dollars you fund green movements in europe to get rid of nuclear energy, which is the cleanest form of energy, in favor of natural gas power plants which produce the CO2 you have been demonizing but this means europe will be buying gas in dollars and that's what matters and while you're doing this you're rolling out a completely untested mRNA vaccine which have never even made it to human trials in the past and telling people it's safe and effective so the government keeps printing money and giving it to pharmaceutical companies who have a contract saying they have zero liability for problems caused by this untested vaccine and while everyone is freaking out about either the virus or the tyrannical actions of their governments you print trillions more dollars and start using a massive fund called blackrock to keep the bond market afloat and while you are giving them trillions of dollars you make sure they promote investing by a metric called ESG which means they invest in companies based on how diverse and green they are rather than how profitable they are and you also have them create an investing platform called alladin which is used by almost all other institutional investors and it uses ESG scores to evaluate companies as well and this causes a massive increase in useless jobs which exist solely to fulfill diversity quotas because that increases stock value more than producing a quality product and selling it for profit leading to an entire sector of the economy arising which produces nothing of value which is really par for the course since 90% of the US economy is printed money, cheap debt, and pretending that investing is anything other than institutionally manipulated gambling and then as you are trying to come out of this fake pandemic you used to try to reduce the velocity of money to stave off inflation from your addiction to money printing and because people are realizing the pandemic was a lie and they want to work, putin invades ukraine and jeopardizes your future plan to keep everyone using the US dollar no matter how much money printing you do, so you go back to your only real plan which is to blow up anyone who doesn't use the dollar to buy energy but russia has nukes so you can't invade them so you commit to sending an unending supply of weapons, armor and ammunition to ukraine in the hope that you can somehow keep alive this dream of the rest of the world being dependent on the US dollar despite printing it to the point of massive inflation to support unlimited deficit spending lining the pockets of billionaires and creating a completely unaccountable ruling class served by the politicians of the world and who own the media ensuring that their will shall be done, even if it means killing off an entire country worth of people to get a gas pipeline that will only sell fuel for dollars, so they can keep printing money for themselves and the rest of the world has to keep pretending their printed money has value.

>Peter, make sure to wear gloves when working with poisonous animals, especially spiders and women. They like to stab you with thier fangs and suck out all the life and happiness right out of you. That's all a woman is - a hideous, poison-filled parasite.
>Now I know what you're thinking, "But Uncle Ben, you're married to a woman." Shut the fuck up Peter, don't talk about May that way. You think I'd marry a real woman? Why do you think we don't have any kids of our own? Trust me Peter, beneath "her" dress is a cock and pair of balls as old and wrinlky as a month-old zuccini and a pair of avocados. Her asshole is like a used rubber band now but back when she was young, goddamn she was as tight as a infant and just as smooth.
>Anyways, what was I talking about? Oh yeah, spiders. Wear gloves. I saw on the news a farmer got bit by a wolf and turned into a werewolf. His brother got his finger slammed in the front door of his house and now he's a werehouse. Has to have forklifts drive into his recieving dock every day, unloading boxes.
>Anyway, I wanted to tell you all this before the Alzheimers gets me.

>As he stretched his legs through the Great Hall, Harry caught sight of Ginny holding hands with Dean Thomas. He felt a pang of jealousy and again wondered who he should take to the Yule Ball.
>"I don't approve of it either, Harry," Dumbledore said, having stretched his legs silently up to Harry's side and taking him by surprise, "Never have, never will."
>"Professor?" said Harry, confused as to what the half-moon bespectacled old wizard was referring to.
>"Miscgenation." He gave Harry a long and serious look before stretching his legs towards the door. After a few long strides he turned back and said "Just because I'm gay, doesn't mean I don't care about the future of the white race. Heil Hitler."
>"Heil Hitler." Harry responded before he had a chance to think about what he was saying.
>A sudden outburst of sobbing made Harry twist around in time to see Ching Chong stretching her legs towards the bathroom.

Movies Without a Single Black Person

When there's not a single black person in the entire cast, not even one extra, well... Whether you want to believe it or not, maybe they do, maybe they don't, but racism can be subtle sometimes.

(((The Thing)))
- Destroys Thule Station and kills most of the Norwegians working there.
- Infects one of the Norwegian's dogs and moves to the American camp as a 'refugee' fleeing 'persecution'.
- Surviving Norwegians try to warn Americans of the contaminated dog, the American with a gun kills them and embraces the dog.
- Thing-dog assimilates people when they're alone, exploiting individuals and isolation.
- Uses aggressive mimicry to create paranoia and chaos, setting the Americans against one another.
- Scapegoats Mac, the guy trying to save everyone.
- Only way to ultimately tell who's a Thing is through a blood test.
- Author who wrote the original story (called: Who Goes There?) was openly racist, it was written in 1938 before the lead-up to WW2.
- (((Qui))) goes there, indeed.

squidward was subliminal preprogramming for todays coomers and gooners

that's why his nose and eyes look like a dick and balls

not even joking, 100% for real

the "pineapple under the sea" is the pineal gland (pineapple) in the brain fluid (sea) of the children watching the show… who soak up all the subliminal programming like a sponge… spongebob.

American cop absolutely annihilated this nuclear physicist. Moorhead was said to be on the verge of discovering a way to make nuclear facilities more efficient before he was tragically gunned down. When will America stop killing its scientifically inclined youth?

The Sound of Urban Poverty

Posted on March 11, 2013 by caroline center

Over the years I have visited many Baltimore inner city homes to interview the residents about their life and work, their hopes and dreams. They are members of the urban poor: the un- and underemployed, as well as those who – despite the fact that they work full time and then some – do not make a living wage and struggle to make ends meet. It doesn't matter what time of the month or year I visit, whether it's the East side or West side, public or private housing, upon entering each residence, I am always greeted by the same persistent sound: the plaintive chirp of a smoke detector whose batteries need replacing. It accompanies us as we settle

"No, I can't tell you WHY the hallway chirps. But I can measure it. I can predict the next and following chirp. I have a very good understanding of it and that's good enough for me. I'm not distracted by the philosophical side of WHY the hallway chirps"

@St1Station

Can't believe I missed this, from 2020.

When DC public schools moved to 'online learning,' teachers heard so many smoke alarms chirping in students' homes that the DC Fire Department launched a public outreach initiative to residents showing them how to change the batteries.

> And while the teachers heard it, the parents and students at the homes seemed so accustomed to the incessant noise that they didn't notice it.

I finally understand why house alarms do not bother the socioeconomic factoroids
The chirp mimics the the noise of a sneaker squeaking on a basketball ball court
The fire alarm chirp is soothing to the minority, basically a white noise machine for them

NP. I did IQ research as a grad student, and it involved a lot of this stuff.
Did you know that most people (95%+) with less than 90 IQ can't understand conditional hypotheticals?
For example:
>How would you have felt yesterday evening if you hadn't eaten breakfast or lunch?
>What do you mean? I did eat breakfast and lunch.
>Yes, but if you had not, how would you have felt?
>Why are you saying that I didn't eat breakfast? I just told you that I did.
>Imagine that you hadn't eaten it, though. How would you have felt?
>I don't understand the question.
it's really fascinating. We did research on convicts in San Quentin. They're absolute fucking retards, at least 50% illiterate.
If every single incarcerated person was summarily executed tomorrow, I think America would be debt-free within 5 years. That's how much damage these people do to the economy. They must cost the taxpayers millions, perhaps tens of millions over the course of their evil lives.

On May 6, 1886, inventor M.A. Cherry patented the tricycle.

Thank you for sharing this!

Katherine Coty 'The first version of the tricycle was invented in 1680 by a German man named Stephan Farffler. This version was operated, not by pedaling the feet, but by a series of gears and hand cranks. The tricycle as we know it today (operated by pedaling) was invented by two Frenchmen – Blanchard and Maguier – in 1789.'

☐ DEAR NIGGERS **Anonymous** (ID: gx1WMrlg) 04/16/23(Sun)17:03:03 No.423788001 ▶ >>423788205 >>423788320 >>423788407 >>423788595 >>423790659 >>423790711 >>423790869

Face the facts, NIGGERS, your race is a failed race because you're a feckless, unruly, uncivilised horde of feral proto-humans. You never figured out how to live in a society bigger than one or two squabbling families. Starting thousands of years ago, everyone else on this planet without exception did – they invented religion, the idea of law, and the ideas of property and respect for the value of human life. This enabled tribes to coalesce into bigger groups and become organised. The rest is history, or rather civilisation.

But your lot never did this, did they? Abstract thought and problem- solving have never been the black man's strengths, have they? Did they invent a long-lived and intellectually coherent religion? Nope. Did they ever build a city? Nope. Did they even invent bricks? Nope (the reason there's no Stonehenge in Africa is because it took more than 20 people to move the slabs of rock – clearly a non-starter in Africa, where assembling more than 20 niggers normally results in a war). Did they till the land? Nope. Did they domesticate an animal for their use? Nope. Did they invent a written language? Nope. Did they invent the wheel? Mainly, nope. Were they curious enough about what lay out across the sea to sail upon it? Nope.

Whenever blacks achieve a certain critical mass numerically in a pre- existing non-black society, they start to exhibit their natural feral behaviour and to turn their environment back into a recognisably African, essentially Stone Age one. Thus, Africa has the jungle; black enclaves have "da 'hood." Large groups of "African-Americans" at liberty in the west actually deliberately break themselves down into smaller, tribal hordes, because they feel uneasy in and unaccustomed to a larger society. Negro gangs of twenty to fifty individuals assert their rights to "tag" other people's property through gang violence, but fail to co-operate otherwise.

Some random nigger tranny is as important as one of the top russian glowniggers, lol lmao

Niggers are America's gods. Americans fear niggers like a mortal would fear God. They're not allowed to curse or speak ill of niggers, like how you mustn't blaspheme God or take His name in vain. They devote entire institutions in academia and media to remind themselves of their sins against niggers and beg for mercy, like you'd beg God for forgiveness for your sins. The only landmarks and monuments they're allowed to revere are parks, schools and statues dedicated to famous niggers, immortalized in marble like gods. While their ancestors expressed devotion to gods through offerings of food and drink, present-day Americans created food stamps for niggers for this very purpose. Jesus gets two annual days of reverence, while niggers get an entire month plus MLK's birthday. Americans prostrate themselves in the streets to appease niggers. This is because nigger worship is the official religion of America.

Just went to his wiki page: three paragraphs on Bout's life as an arms dealer and smuggler, international, conflicts, federal and interpol sting operation, then this last sentence: "From June 2012 until December 2022, Bout was held at the United States Penitentiary, Marion, before being released in a prisoner exchange with US Basketball star Brittney Griner, who was arrested in February 2022 at a Moscow Airport for possessing hashish oil."

That's hilarious. An international arms dealer who supplied enemies of the united states military, in exchange for a basketball player.

GRASSY KEY, Florida (Reuters) - Deep in the heart of the Florida Keys, wildlife officials are laying bait laced with poison to try to wipe out a colony of enormous African rats that could threaten crops and other animals.

U.S. federal and state officials are beginning the final phase of a two-year project to eradicate the Gambian pouched rats, which can grow to the size of a cat and began reproducing in the remote area about eight years ago.

"This is the only place in the United States where this is occurring," said Gary Witmer, a biologist with the U.S. Department of Agriculture's National Wildlife Research Center in Fort Collins, Colorado.

"They don't belong here and they need to be controlled."

A former exotic pet breeder, living in a small house, bred the species and allowed the critters to escape.

TIME OUT FOR A SMILE

AN American Vietnam vet, serving as captain in a Rhodesian Armored Cars Regiment, cited incident after incident of terrorist ineptitude. Among the most notable are:

After being in Rhodesia only a few weeks, the captain and his men made contact in the bush with some terrs. After the firefight, during routine clean-up operations, the captain was puzzled as most of the rear sights on captured AK-47s were adjusted for maximum range (1,000 meters). Since most of the contacts occurred at close range (50 to 200 meters), the captain was mystified. He asked an old hand for an explanation. The answer was simple: the Africans assumed that if setting the sights for shorter distances made the guns potent, adjusting them to maximum would make them incredibly powerful.

His next encounter with terrorist logic came a few months later. After a brief contact, a clean-up again commenced. The captain found fixed bayonets on most of the captured AK-47s. He had not heard of hand-to-hand fighting in Rhodesia and became intrigued. Again, the answer was simple. The bayonets served two purposes. First, they made the AK-47 longer, and thus a more imposing weapon. Second, the bayonet "guided" the bullet, thus making the weapon more accurate.

Only a few days later, after a raid on a terrorist camp, more AKs were captured. Most of the weapons were superbly maintained, which in that climate was noteworthy. But one conspicuous detail made the captain scratch his head. The bottoms of the near-new magazines were inordinately scratched and rusted. After racking his brain, he interrogated a prisoner. Again, the captain was enlightened. The AK-47, with inserted magazine, was the ideal height for use as a stool.

Thus, understanding the enemy and his culture made seeming inconsistencies perfectly lucid. And very entertaining.

>It lacked what is necessary to be considered food....FLAVOR!

I'm going to let all of you anons in here in on a little secret. Did you know that when niggers talk about "seasoning" they are exclusively referring to "Lawry's Seasoned Salt?"
I'm not joking, it's an honest to God fact. Next time you get on the subject of cooking while chatting with a nigger ask him what his favorite seasonings are to use while cooking. He'll stare at you mouth agape before mumbling out some incoherent nigger speak like
> "mufuggah ion no not mufuggin gorton ramsay nigga nah mean I'm just usin seasoning nigga"

Niggers really have no concept of seasoning, they honestly think all flavor is derived from lawry's seasoning salt. One time I was invited to my nigger neighbor's 4th of July bbq. I could hardly contain my excitement because I was finally about to be enlightened by the fabled nigger BBQ, or so I thought.

Imagine my disappointment when I arrived and was greeted with the following
>chicken rubbed with lawry's seasoned salt
>ribs with dry rub of lawry's seasoned salt and paprika
>mashed potatoes loaded with lawry's seasoned salt
>salad garnished with lawry's seasoned salt
>asparagus coated in so much lawry's seasoned salt that it was entirely crystallized by the time it was done grilling
>every table had a bottle of lawry's seasoned salt on it "to add some extra seasoning"
It was absolutely unreal. Do you know how many times I was asked to "pass the seasoning" that night? It can't be counted on both hands. Describing the situation as Lynchian is too kind.

If you ever find yourself dating a nigger and want to impress her grill up some chicken and rub it with enough lawry's seasoned salt to cure an entire calf. You will be amazed at her eyes light up as she takes her first bite and she showers you with compliments for "cookin' with soul"

"And Not This Man?", *Harper's Weekly*, August 5, 1865. Thomas Nast drew this cartoon; in 1865 he, like many Northerners, remembered blacks' military service and favored granting them voting rights.

"Colored Rule in a Reconstructed(?) State", *Harper's Weekly*, March 14, 1874. Nine years later, Nast's views on race had changed. He caricatured black legislators as incompetent buffoons.

We have one solution. It will be difficult, but it's our only way through.

I live in a big city, but I have invented a method I call "urban foraging". Basically I hunt and find 90% or more of my food. For example, the geese by lakes in town are ridiculously easy prey, for some reason this man coming at them with a bat doesn't trigger any survival instinct within them (kek). You can also find lots of berries in the spring and summer but some WILL give you diarrhea. Obviously people's gardens are fair game too. I'm a pharmacist, I make $140k a year but I'm saving so much by not having to pay for food, it's incredible and I get to get back to primal roots. Anyway, hope this helps.

Hey /fit/. I have a question regarding health and fitness.
I am currently obese at 300lbs. I don't care about my body but I care about my mind.

I am very very slow witted. I am unable to think of quick responses in situations that call for it.
Has getting fit helped you guys?

I want to give some examples

Today I was out shopping for food, and I wanted a Pineapple to make a Hawaiian pizza.
A kid and his friend said something along the lines of 'I bet he wants his cum to taste better so he can eat it'.
I wanted to respond so I span round and said 'Actually I want you to eat it'. They laughed in my face.

A few weeks ago I was in the same store, this time shopping for chips
I dropped a tube of pringles on the floor
I looked up and an old woman was looking at me
To try and break the tension I said 'Pick that up'

I just can't think fast. Does getting fit help this? I feel so fucking slow when I am trying to think of things to say.

Look closely
You see that? Those are actively healing wounds...
That IS

A VAST EXPANSE OF FLESH

No
NO!
Don't you dare look away in disgust.
You will look upon it in awe and wonder and THEN disgust as the bile creeps up the back of your throat.
You try to hold it back, to keep it down.
But it's too goddamn late, isn't it?
You can't unsee this.
You can't purge it from your senses.
But that isn't going to stop your body from trying.
Revel in the release of the coherent, laser like stream of vomit that spews forth from your mouth like a successful exorcism casting out a demon, that heady minute of endorphin fueled bliss that might trick you into thinking it isn't all that bad.
But then weep at the failure of your eyes to bleach themselves or unsee. Weep at the knowing. Weep at the flesh and the sacrifice of your sanity.
WEEP
Because it won't ever be the same again.
For now and all time whenever you think of 38 super, you will only think of OP's vast bulk. Like a Hutt basking in the sun. Folds of leatherlike flesh rolling as his lungs heave breath in and out of slowly failing lungs.
No, 38 super will never again be a joy. Only a reminder of this...
VASE
EXPANSE
OF
FLESH.

Why aren't grenades designed like these anymore? They have some definite advantages over what is commonly used today and they seem pretty practical in terms of ergonomics.

I've been designing this buttplug gun the last few days and I would like to get some input before I sink more time into it
Everything is to be 3d printed except for the barrel, the cylinder which is from a NAA 22lr revolver, the pin that strikes the cartridge, and the flat spring behind the hammer that isn't pictured
My first concern is I don't know for sure that pulling the trigger with you anus would be possible or how heavy of a trigger it can pull
The barrel is going to be a pipe and its just loosely sitting in there because I would rather not need to machine it. Idk if 22lr is going to have enough force to move the barrel out of place
Do I need to worry about the plastic structure behind the cylinder not being strong enough to handle the recoil?
I am interested in using some kind of electronic firing system but I haven't had any luck finding designs I could use. I would have a much easier time pulling the trigger on an electrically fired gun

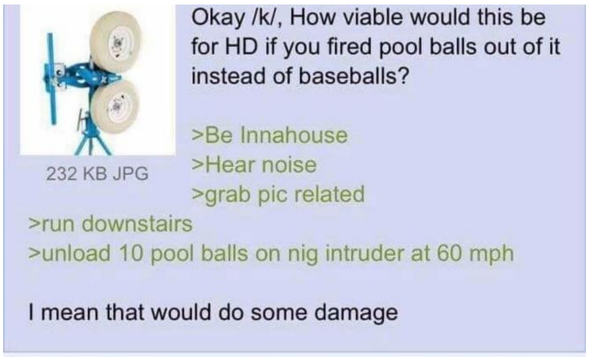
sup /k/ommandos? The other day I found my 11 year old son in my room playing with my Mossberg 590 (unloaded, of course). Now I instantly grabbed the shotgun and with the force of a thousand furious niggers, I smacked the little fuck across the head. Later that day I asked him why he was playing the the gun. He said it was because the main character in GTAIV had one and he wanted to look cool like he does and that he thought that killing people was fun. Now of course like a good parent I talked to him about gun safety and told him that killing someone in the game was way different than killing someone in real life. I knew he didn't get it so I sat him down in front of the computer. I then began showing him images of people who had been killed with guns. For most of the images he just looked at the screen in horror, kind of like when you first find your parents fucking in your room. Eventually he began telling me that he felt sick and that he didn't want to see anymore. Just to make sure that he got it, I played the "Dagestan Massacre" video, the one where those six Russian soldiers are beheaded. He looked away nearly vomiting. I tried to make him watch but he just tightly closed his eyes, so I turned up the volume so he could hear the men gasping for air through their slit thoughts. My son, like the cunt he is, puked and began crying. I knew my job was done. I now know that the next time he plays GTA that he wont think killing is cool and that guns make you into a badass. I also know that the sounds of a pig squealing will trigger the memories of those men gasping for air. Man, I feel like a great father. So /k/ommandos, my question to you is: Is facial camo available for regular US riflemen? Or is it just OPERATORS that use it?



Okay /k/, How viable would this be for HD if you fired pool balls out of it instead of baseballs?

Microdosing bullets

694 KB JPG

Hey /k/ommandos I started microdosing bullets by shooting myself in the leg with .177 pellets and after 2 months they stopped breaking skin so i've moved up to .22 pellets. My goal is to work up to 22lr by the end of the year and then one day get to .223. Is this possible? Can I become bulletproof?

An Update to my previous post. So After shooting myself in the leg with .22 pellets they were getting to point where most of them wouldn't break skin so I thought I was ready to try a .22 short round and I was very mistaken. The bullet lodged itself in the middle of my calf and I had to go to the hospital to get it surgically removed. Worst pain in my life it took them half an hour of cutting and digging around in there to get it out. The one nurse was a QT3.14 though so if I can get her number it might have been worth it.

But I think I'm done with the whole shooting myself thing. It's going to be awhile before I can walk normally again and the painkillers they gave me don't work for shit.

If any of you /k/ommandos feel bold enough though feel free to carry on in my place.

So the concept of "paid reviews" is often conspiracy theorism...

... until a licensed Warner Bros. game asks me for my fucking review fees.

Hi Jim,

We are working with a leading Chinese game developer and publisher Yoozoo Games on an exciting launch campaign for their new game, **Game of Thrones**. It's a browser game officially licensed by Warner Bros. Interactive Entertainment under license from HBO.

We would love to partner with you. If you are interested to review the game, please provide your fees for a dedicated/integrated YouTube video.

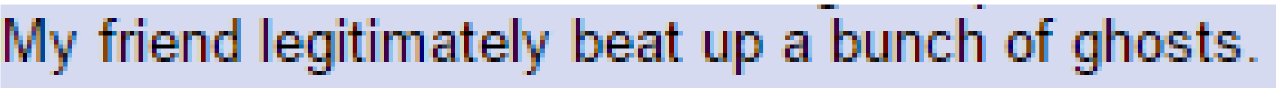
Lifting buddy still lifts and does inane shit like he always does. No one fucks with him since the ghost puncher incident. Abuela

mires every time she's around him. And I think the priest told his priest buddies/church

because everyone mires and cowers in grace twice as hard when they are around him.

Again, non of this was made up.

No walk the dinosaur tend shit.



My friend legitimately beat up a bunch of ghosts.

>Why is Scorpio stuck with a shit rep you ask? Why do so many retarded cunts immediately act repulsed when they hear the word? Simple. Scorpio is the astrological sign attributed to Mars, the Lord of Blood, Rape, War, Conquest, Battle and Painful Deaths, and represents his nocturnal sign. Aries, Mars' diurnal sign, is associated with being impulsive, brave, cocky and full of fight, whereas Scorpio is the silent, subtle and maliciously intelligent side of Mars. You need brave soldiers to win battles, but you also need cold-blooded assassins and spies to win wars. Scorpio is a malefic sign and is not naturally beneficial. Hence, people associate it with edgy, bad or damaging people.
Scorpio is also associated with genitals, and there's a lot of suppression of all kinds going on there.

Scorpio's qualities, both good and bad, allow for unparalleled ability to do good if enlightened. This is because they easily refuse passivity of a noble watcher(a monk just sitting there). Probably the only sign where not reaching enlightenment(the Phoenix transformayion)is a mortal sin.

I get that paintings are probably cheating but this is depicting an actual event, the discovery of phosphorous, which was uncovered after a dude boiled 60 buckets of piss, making it into a syrup, where it then seperated into a salt and a black substance, he seperated the salt and heated up the black stuff until it gave off fumes, then a kind of oil, and finally became the substance depicted in the painting.

Never should've stopped calling it alchemy, in my opinion.

"Alas" cryed king Salzar "my plan is becoming perfection!" King Salzar sat on his gold throne and watched as the two prize dragons eyed eachother. The red fire dragon reared on his legs and flapped his wings with vigor. The ice dragon stared with her icey blue eyes. The flaps of the fire dragon did not turn Tundra on, the flaps of the fire dragon were not erotic to an ice dragon. "Let the games begin" cryed King Salzar as the dragons faced eachother. Hesitating Tundra assumed a crouched position and displayed herself for Tiberious. She knew what she was doing was a crime against nature, but dragons will do anything for money, including crimes. Dragons care not for human law to violate a human law is nothing to them. There morals are dragon morals and this went against dragon morals which did not allow mating between different dragons. She raised her tail high in the air as Tiberius approached her from behind then monted her. Frost came out of Tundras mouth and she felt as if she had been stabbed by a firy sword as Tiberious began to take her. He flapped his wings as he gave mighty thrusts and smoke and fire shot out of his mouth. King Salzar watched the display in awe of the beasts before him and got out of his throne so he could stand further away due to the intensity of the display before him. King Salzars gaurds watched too as Tiberious roared and growled while Tundra huffed and frost flew from her mouth. The guards were so shocked by the great vigor of the desplay in front of them they had never seen such a display of pure animal lust and as the room shook as Tiberious roared even louder. Even the banners on the wall of house Salzar were flapping and some were even singed from the hot flames that shot out of his mouth.

Just then the queen Razlas entered the room and gased at the smell smell of smoke and frowned at the singed banners. "The housemaids will be busy all week fixing those she said. Watched the passion of the dragons and seeing his own wife made King Tiberious thing back to when he was 19 and price and had just married princess Razlas. Oh that magnificent first night together oh the passion. A virile man King Salzar had stayed up all Night thrusting and thrusting his wife as she screamed so loudly with passion that the housemaids and guards were scared. "Come sit on my lap dear" King Salzar said as the dragons consumated. "A consumation of dragons what an awful sight!" said Queen Razlas as she watched in horror as the dragons roared and procreated. Still she could not help but be slightly impressed by the specimens in front of her. The shaft of Tiberos measured 10 feet long and fully penetrated tundra with each thrust as it took her.

Suddenly Tiberius let out an incredible roar, one that shook the whole castle and was heard for miles away. Red oozes shot forth from his shaft and filled the icy snatch of Tundra. Tundra haughtily breathed frost as she lay down to recover from whad had occured. "Yaay!" cheered Salzar the great king as he watched the red ooze dripping from Tiberius swollen shaft and saw it dripping from Tundra too as he knew the dead had been done. Now said Tiberius do not forget out deal! 10000 gold pieces! The sex had been ok but the real excitement and passion for dragons is money. A dragon can never accumulate enough. A dragon remembers his frist gold piece the way a boy remembers his first time having sex. Dragons remember their first time having sex too but it is not as exciting to them as it is to humans. They enjoy pleasure from it as king Salzar could see from there faces, but the pleasure on Tiberius face was about three

as he pered he new the magic would come in useful. But he was still racist and decided to antagonize the elf further.

"So tell me," Blashnickleon said, "does that wand work on living cretures too?" Samson pointed the wand at his assistant and Blashnickleon stared in amazement as he saw all of the assitants internal organs and bones. "When your mother saw what you looked like in her womb she should have aborted you the second she saw your deformed retard head." laughed Blashnickleon. Samson looked furious as he stared down at the dwarf. "Your the deformed one, your barely 4 feet tall!" "Shut up sharp ears!" yelled Blashnickleon looking very angry. Samsons jaw dropped in shock at the crude insult he had just receved. The two men glared at each other feeling like eternal enemies. These were reasons they had never worked together before now. But these were dier times. The two men were still starring at each other in anger when there children walked in and saw them looking like they would fight.

"What's going on daddy?" Asked Blashnickleon the younger as he noticed his fathers beat red face and saw how angry the elf looked to. "This genetic abomination is the problem hear!" yelled Blashnickleon the elder. Blachnickleon looked on in confusion as the two men traded insults instead of blow. The young were not born racist, but over time as they grew into the culture and became of age they would learn racism. The coming of age ritual for the dwarves ment swearing allegence to the dwarves and swearing to hate all elves and kill one if it ever entered the mines. To keep the elves out of the mines the doors were intentionally only 4 feet and 6 inches tall witch is 1 foot shorter than the average elf. The elves had more advanced methods to keep the dwarves out of there mountain palaces because they are versed in the ways of magic.

"Your a genetic abomintion and are a poison on the globe!" screamed Samson to Blashnickleon the elder. Just then Blashnickleon drew his axe and said he would hack Samson to bits as he held the axe above his head and imagined using his strength to chop Samson right down the middle in one blow and then chop him to more pieces until he calmed down. "Wait!" cryed the young Blashnickleon as he stood between the two men. Have you forgotten why you are working together? They put away there weapons and apologized even though they were still mad and did not really mean it.

"I will assign 1000 of my best miners to dig deep within the earth for you!" Said Blashnickleon. "Agreed we will put a stop to all those dastardly roaring dragons" Samson said. Deep bags were under Samsons eyes and now Blashnickleon understood why. The roaring of the dragons was ferocusly loud but could barely be heard deep down in the mines were the dwarves lived. In the mountain castles were the elves lived the roars were so loud that they could hardly sleep at night. "Come said Blashnickleon" Let me give you a bed deep in the mines, we will take the royale mine cart down there.

Don't feel bad. Porn stars die twice: when they stop breathing, and when someone nuts to them for the last time. As long as brave men like us keep nutting to her, she's not truly gone.

As of a few minutes ago, I recorded 25 frog OPs on the board. Highest I've seen so far.

I am of the opinion that frog related posts are a manifestation of demonic spirits. I would urge anyone thinking of posting such a thing to first question what spirit they are of, and refrain from posting stuff such as 'Pepe', 'Kek', etc.

Reasoning behind my opinion:
>Frogs are brought up twice in scripture, first in the context of a curse on Egypt, lastly as end times demons.
>When /pol/ found out about the Egyption demon 'god' 'Kek', that lead a lot of anons down the path of demon worship, and gave a revived meaning to the name 'Kek'.
>These end times spirits 'work miracles'. Think about the times 'dubs', 'trips', etc acted as false signs. Also things like 'Shadily P.E.P.E' acting as a false wonder, giving rise to false doctrine such as 'meme magic'.
>These end times 'frog demons' are described as 'unclean'. Pepe is commonly associated with urine and feces (e.g. when he's bullying jannies).
>These end times 'frog demons' go to the 'kings of the earth'. Pepe is a very common meme in the political sphere; very active here during the 2016 US election.

>13 And I saw three unclean spirits like frogs come out of the mouth of the dragon, and out of the mouth of the beast, and out of the mouth of the false prophet.
>14 For they are the spirits of devils, working miracles, which go forth unto the kings of the earth and of the whole world, to gather them to the battle of that great day of God Almighty.

Coat your dick in KY jelly or similar water based lubricant then blow it dry with a hair dryer.

Then during fuck, the slightest wetness from her will make you go full slippery banana. She will think you made her so fucking wet. This actually makes girls fall in love with you.

I will look like i literally lost my shit if i pulled out a bubble blower while i was having a PTSD attack. The standard of therapists have gone down now. The problem with society at the moment is a lot more dumb people are being bred but we need a professionals relative to that population. Unfortunately we now have to recruit the dumb to fill the space in high end roles now. You don't even need an education to become a therapist in some countries now (just lived experience). Your pretty much just gettting self reflected therapies from crazy idiots now... unless you are paying top dollar.

Hey /b/ I work at a suicide prevention hotline based in the Midwest. Ask me anything while I tell you stories.

Let's start with a nice one:
>Be me, just getting off call with a girl who wanted to kill herself over some guy leaving
>Logging the notes of the call while microwaving a soft pretzel
>Fuck me those pretzels are good
>Phone on desk starts to ring
>Rush back and pick it up
>An old raspy sounding man starts talking
>Ask me "Do you got time for a story"
>Have to respond yes
>Think he is going to tell me a depressing war story, or his entire life story
>Old people do that a lot
>Guy responds "You ever heard of animal farm"
>I'm a fucking retard
>think he's talking about a literal farm, they are everywhere here
>I ask him to clarify
>"You know the book"
>Nope.communism
>"Oh perfect"
>The old man starts reading me animal farm
>He does different voices for all the characters

I had to ask him to call back later after about 20 minutes, we were getting more calls. Old man, if you are out there somewhere thanks for the best fucking night shift I ever had.

I'm absolutely fucked. I just filled my pants while driving my rental car. There's diarrhea smeared all over the driver seat and the floor. I stopped at a car wash and cleaned the seat out the best I could, but the smell is still unbelievable and you can still see staining all over the fabric. Is there a cleaning agent you guys recommend that won't fuck up the interior? I have to return it in less than three hours now. It's a Kia Forte if that matters.

It's nothing too crazy.
>Be me, a 25 year old friendless KHHV
>Go to city library as always, go there at least once a week
>It has a manga corner ("Adolescent Spirit"), so an entire small room with manga and also several couches to sit there and read
>I visit it rather often, like manga
>Today I go there and there is a single girl sitting on the couch
>Glance a few times, she is a bit chubby but not double-chin tier, maybe a bit younger than me or around the same age, kinda cute
>She is all alone, so I think maybe she is also lonely like me (I don't know how I came to that conclusion, not everyone alone in the library is alone in his life as well)
>Reading Tokyo Ghoul: Re, I dropped it but read the prequel, great base for conversation I thought
>A good 5 minutes go by until I manage the courage and decided to go talk to her
>"If I don't do it now, I will regret it forever"
>Decide to be witty and start banter, because I read girls hate it when you just say "Hi" or "Hello", you have to stick our or whatever
>Go up to her and say "Tokyo Ghoul: Re, you like it?"
>She didn't hear me the first time, so she looks up and asks me to say it again
>At this point already I just want to leave ASAP, it's like going on stage and then tripping
>So I said "You like Tokyo Ghoul: Re?", she says yes
>I explain to her that I read the first one and think it is 10/10 but the sequel really sucks since it's a downgrade in pretty much every regard (that monologue went for a good minute I think)
>"Hey I dropped it at [volume X], does it get any better, like would you recommend it?"
>"Yes"
>Desperate to keep the conversation going, despite 0 conversation skills because always alone
>"What other manga do you like?"
>"Can't you just leave me alone, man!?"
>Jesus Christ, I was just shocked, just mumbled "Okay, sorry" and was about to leave
>Says if I harrass her again she will show the security footage to the authorities
>Tell her the manga corner doesn't have security cameras
>She packs her stuff and leaves in surprising speed
>I just stand there for a few seconds and then leave as well
And now I am scared to go back.

I was called to the counselor's office in high school because I wrote a children's book for a health class assignment that was "inappropriate." An anthropomorphic carrot, Clarence the Carrot, befriends a fat kid and helps him make healthy choices and eat fruits and veggies instead of fried food and candy. For most of the book the kid loses weight and leads a healthier happier lifestyle and at the end says wow Clarence, you changed my life, but why are you the only vegetable that can talk? And he tells the kid they all used to be able to talk, but - in a full-page zoom to this cartoon carrot's smiling orange face - Clarence murdered them all and used the kid to get rid of the bodies. The last panel is The End over the kid vomiting.
The counselor said she thought it was a bit silly to call me in but told me "I am legally required to ask if you are okay."

I met and fucked a married milf once. once. the guilt still haunts me 1 year later.

>job is a delivery driver, met her and helped her set up party equipment
>she's flirting the whole time, the party was for a school dance and her son is going
>typical soccer mom, great body, brunette, looks like a 20 year younger lisa ann

>after setting up everything she hands me an excessive tip and asks if i'm going straight home after this, say "not unless there's something better to do"
>she replies back "well i need some help moving some things around the house and could use a strong man like yourself if you want to make an extra buck" and winks
>i follow her back to her place, it's huge and in a nice part near downtown, pull into the circle driveway and start having second thoughts "is this right?" "what if we get caught?" "i don't even have a condom"
>i walk in and she instantly hands me a glass of wine, she unbuttoned some of her shirt and let her hair down. we talk casually for 15 minutes getting to know eachother
>during this time i'm glancing around the room looking at pictures, looks like a happy family, smiling son and husband
>doubting thoughts come back "if i had a wife would i want her to fuck some guy?" "if i don't fuck her some other guy will"
>in an attempt to get away i let loose a slightly annoyed "didn't you need me to move something?"
>she lays down on the couch and says "yes, move me to my bed" like a kings demand, she's pretty drunk already
>as i'm putting my arms around her she grabs hold of me and brings me in, kissing me and feeling me up
>one thing led to another and i ended up coming inside her while staring at a picture of her son

i didn't sleep that night. and i'm not religious but i felt like a committed a huge sin. every time i think about it i feel guilty as hell. never fuck a married girl anons, it's not worth it.

I was here when moot killed /new/, and it was almost ENTIRELY because "da joos" he was trying to get adverts from didn't like the fact that people could say what they wanted about niggers and get away with it....and they were scared it would attract bad attention and cost them money.

> moot killed /new/ because "da joos" approached him about advertising and/or him selling the site, and "da joos" didn't like the fact that people could come to /new/, talk about niggers nigging and jews jewing in the news, and do it anonymously.

> moot said "ok, if it gets the deal done, I'll kill /new/"

> moot kills /new/ and sees very quickly how HUGE of a mistake it was

> brings back /new/ as /pol/ and it's been the way it is ever since.

If you think I'm bullshitting, you'll notice how there's no REAL advertising on this site...and it's because moot knows, it'll never happen as long as people can come here and say what everyone is thinking about niggers and jews anonymously.

If he kills /pol/ to try and get shekels again, he KNOWS /pol/ will DESTROY this place if he fucks with us.

The other reason why I KNOW it was about niggers (and I think he was doing it as way to give /new/smen the middle finger) was that he coincidentally killed /new/ on MLK day.

Moot was pissed...but he found out the hard way you don't fuck with /new/ or /pol/.

The thing that pissed me off is that as much as moot and the libtards/niggers/joos that didn't like /new/ have no problem with the rampant CP on /b/ and the rest of the animated chans that are nothing more than boards full of pedo's drooling over drawings of naked 3 year olds.

Pic related.

Hahaha, nice revisionist shit there anon. Blame the "stormfags" for why /n/ became racist. It was those evil "stormfags" from stormfront that did it. It had nothing to do with those racial IQ differences debates that the left kept losing. It had nothing to do with those Israeli-palestine threads that would turn pretty extreme. It had nothing to do with naive moderates coming across reactionary position.

You know, its hilarious. Its like those people who say "/pol/" invaded /v/ to turn it into an anti-feminist. No, its just people political position changed. Oh, and Anita sakessian didn't help.

But the people who say "redpill" annoy me. Don't they know that was just a term used by spammers?

I hope you guys read this because it's something I want to tell every anon.

WE HAVE ALREADY WON. THE KILLING BLOW HAS BEEN DELIVERED. I know that sounds stupid, because we don't have any power yet. The point I am making is that you won the culture war over the past 10 years. Every year more people will come to this world of ours. Every day people are waking up to the truths we all have espoused for years. You guys, with your memetic energy were able to shift thought towards our circles. The situation is far from hopeless. We are winning.

The People Are “The Enemy”

The DHS (Department of Homeland Security), Office of Intelligence and Analysis, "Rightwing Extremism" Report (March 09), with supplementary ***"Domestic Extremism" Lexicon (April 09) classifies*** *individuals as* ***"extremists" if they identify/ are identified with one or more of the following*** *criteria—among many others—each of which is* **described as "violent:"**

- **Military Veterans** who have fought in foreign wars and are “disgruntled” about the takeover of the US (see *Operation Vigilant Eagle*).
- **Anti-War Individuals/ Groups**.
- **Tax Resistance Movement**: "Groups or individuals who vehemently believe taxes violate their constitutional rights... and that the 16th Amendment to the U.S. Constitution, which allowed Congress to levy taxes on income, was not properly ratified... (also: tax protest movement, tax freedom movement, anti-tax movement)."
- **Militia:** "Members oppose most federal and state laws, regulations, and authority (particularly firearms laws and regulations)."
- **Alternative Media** which provide "interpretations of events and issues that differ radically from those presented in mass media outlets."
- **Opponents of Open Border Policies**, defined as "highly critical of the U.S. Government's response to illegal immigration and [who] oppose government programs that are designed to extend 'rights' to illegal aliens, such as issuing driver's licenses or national identification cards and providing in-state tuition, medical benefits, or public education."
- **Single-Issue:** "Groups or individuals who focus on a single issue or cause—**such as animal rights, environmental or anti-abortion**... Group members may be associated with more than one issue (also: special interest extremists)."
- **Patriot Movement**: "A term used by rightwing extremists to link their beliefs to those commonly associated with the American Revolution... (also: Christian patriots, patriot groups, Constitutionalists)."

The DHS has established dozens of “**Fusion Centers**” in cities and states across the country to monitor domestic activity. Local, state, and federal agents from DHS, CIA, and DOJ share information concerning the activities of citizens.

Activities monitored by Fusion Centers overlap with those stated in the DHS Report/ Lexicon (above) and further include the following (which tend to vary state-to-state):

- Frequent references to the **Constitution**
- Support of **third-party** candidates
- Support for an audit of the **Federal Reserve**
- Opposition to a **carbon tax** to be paid to a world bank
- Opposition to US submission to the **United Nations** and/or the **World Health Organization**

The FBI's “**InfraGard**” program: In addition to collecting data internally, FBI agents work within the private sector with businesses which report on citizens' “suspicious” activities.

The **US Department of Defense**'s current training manual (introduced at *Antiterrorism and Force Protection Annual Refresher Training Course*, 2009) advises personnel that political protest (admittedly protected under the First Amendment) is to be regarded as “low-level terrorism”.

🇳🇱A law just passed to expropriate Dutch Farmers under the guise of a nitrogen ‘crisis’. The truth is the establishment wants them gone because they’re the epitome of the white working class, they stand in the way of the 2030 agenda & their land is needed to house new immigrants.

Does anyone have any links to Goyim Defense League prank calling San Fran city council meetings? I listened to that one 45 minute video but I'm hungry for more. Either that or the calls to the Portland Maine city council that were apparently hate speech. I am addicted to listening to some city council woman have to read out names like Judy Stroyer and then listen to the caller pull some bait and switch anti semitic rant.

i have been to 4 different forklifting competitions. just as spectator, not into real forklifting myself (only virtual), but i have noticed, that even at that one very big event i have been at, with like 1500 visitors, not a single one, seriously, NOT A SINGLE ONE of the other people there looked like they had a foreign background.
so i guess forklifting as a hobby might be something that is white exclusive?

you were paid for 1 night. Cooper's salary is for 1 year. you actually get paid more than him per telecast. your tweet perpetuates the false and damaging stereotype that math is harder for women.

You spent $700m in our country trying to teach women and girls that there are 140 different genders.

No wonder you lost to the orange gangster.

You left a huge mess behind in Afghanistan, just like your husband did with that dress.

Dmitry Medvedev @MedvedevRussiaE

Biden has announced his desire to run for President, unite all of Europe, and "put down" the President of Russia "where he cannot cause the kind of trouble he's been causing."

So, this is what the US President's mission is all about! And we used to think – naively – that it was to secure Americans' prosperity.

Anyway, nothing of it is going to happen. One of reasons is because he has already forgotten what he said.
Dementia is a useful thing.

Ok so lets get these vaccine mandates and Vaccine passports up and running ASAP. We seeing children DIE daily from the unvaccinated selfishness. Pregnant women at risk too. PROTECT LIFE. MANDATE THE VACCINE. Jail anyone who refuses, to protect LIFE

Uche Nwaneri The Observant Lineman... @Ch... · Aug 30, 2021

What kind of idiot must one be to actually take a dewormer ivermectin which has absolutely nothing in any study anywhere about using for **Covid**, but you're stupid ass doesn't want a vax. I mean natural selection takes over at some point right?

Again the fed gov is OBLIGATED to provide for all of our welfare, so they will select to protect the whole over the individual in a situation of public health threats. Thats why we cannot go to school without getting VACCINES

But a mandate on getting a vaccine has no malicious intent either. Its to protect me, even if its 5% more protection, it may be enough to keep me from getting a huge viral load and long haul covid. The fed gov is obligated to protect BOTH of us, not just you.

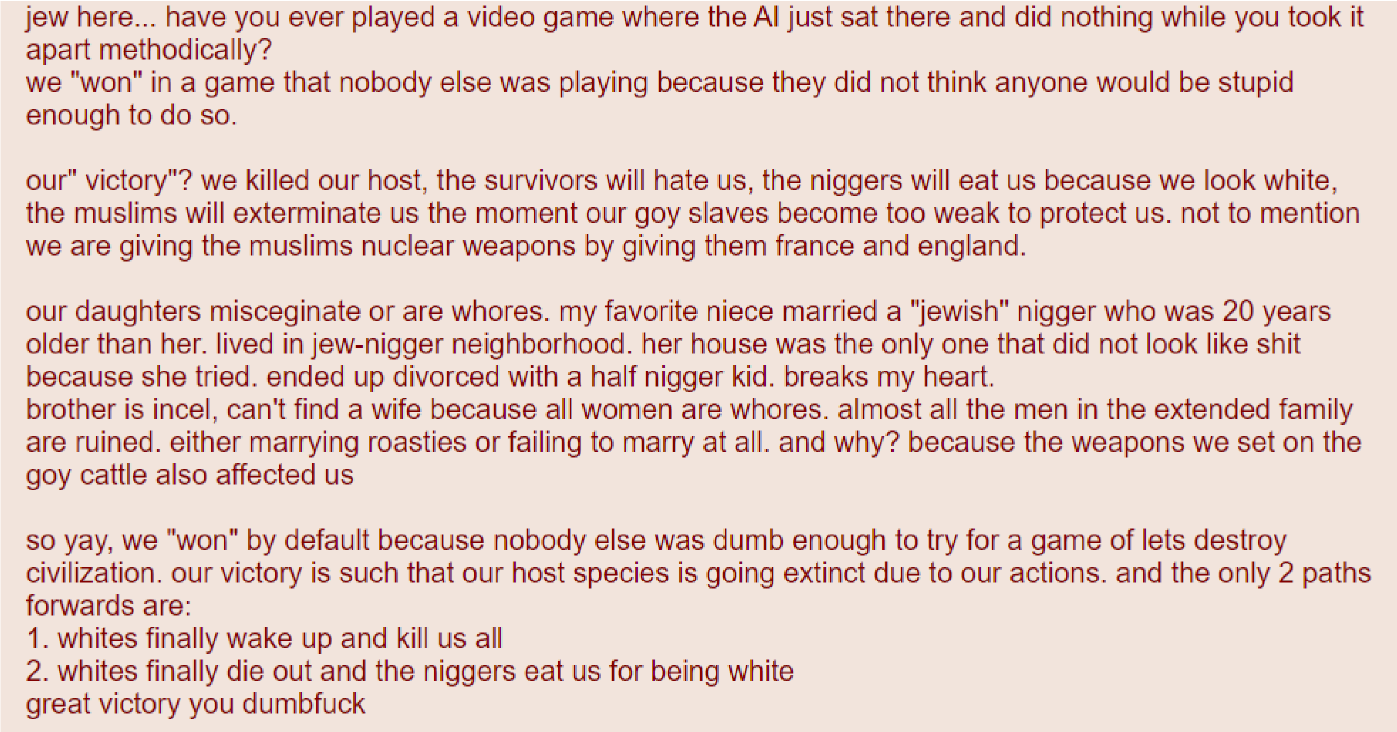
- The letter states the exclusion is 'discriminatory' and demands Jews be added to the Representation and Inclusion Standards set by the Academy



jew here... have you ever played a video game where the AI just sat there and did nothing while you took it apart methodically?
we "won" in a game that nobody else was playing because they did not think anyone would be stupid enough to do so.

our" victory"? we killed our host, the survivors will hate us, the niggers will eat us because we look white, the muslims will exterminate us the moment our goy slaves become too weak to protect us. not to mention we are giving the muslims nuclear weapons by giving them france and england.

our daughters miscegenate or are whores. my favorite niece married a "jewish" nigger who was 20 years older than her. lived in jew-nigger neighborhood. her house was the only one that did not look like shit because she tried. ended up divorced with a half nigger kid. breaks my heart.
brother is incel, can't find a wife because all women are whores. almost all the men in the extended family are ruined. either marrying roasties or failing to marry at all. and why? because the weapons we set on the goy cattle also affected us

so yay, we "won" by default because nobody else was dumb enough to try for a game of lets destroy civilization. our victory is such that our host species is going extinct due to our actions. and the only 2 paths forwards are:
1. whites finally wake up and kill us all
2. whites finally die out and the niggers eat us for being white
great victory you dumbfuck

We will take them to the Chabad Rape Tunnel
Tie them to a mattress and fuck them to death
So, what would have been so terrible if I eat their flesh after harvesting their organs to sell?

I bribe all the cops and accuse the rest of antisemitism
Ya ba dibba dibba dibba dibba dibba dibba dum
All day long, I'd fuck a tiny biddy baby butt
Since I am Jewish man
I wouldn't have to work hard as the raped children gush blood
Ya ba dibba dibba dibba dibba dibba dibba dum
Shabbos-Goy!

If I were a biddy biddy rich yidle-diddle-didle-didle man
I'd build a big, tall RAPE temple house with rooms by the dozen
Right in the middle of the town
A fine tin roof with real wooden floors below
There would be one long staircase just going up
And one even longer coming down to the rape tunnels
And one more leading nowhere, just to hide from my hideous tranny wife! Hey!

To trick them is our real test
Enslaving them for fun
We will travel across the land
Fabricating lies
Teach the Goyim to understand
That whites are the bad guys

PROTOCOLS! Elders of Zion!

Ya know it's our destiny

Oh, it feels so good
Weaponizing victimhood
PROTOCOLS! Elders of Zion!

Protocols! Elders of Zion!
Elders of Zion!

Every exile along the way
Propaganda will erase
We'll remind them every day
The plights upon our race
Come with me, the time is ripe
To hatch this clever scheme
Inherit earth, it's our birthright
It's always been our dream

these 4 provinces are russian, but they were assigned "ukrainian" at birth. recently they have come out as trans. they are border-fluid regions and their sovereignty is non-binary. they are russians trapped in a ukrainian body, and have made the decision to transition. their pronouns are now dpr/lpr. we indians, as allies support this transition, and condemn transphobic attitude of westerners

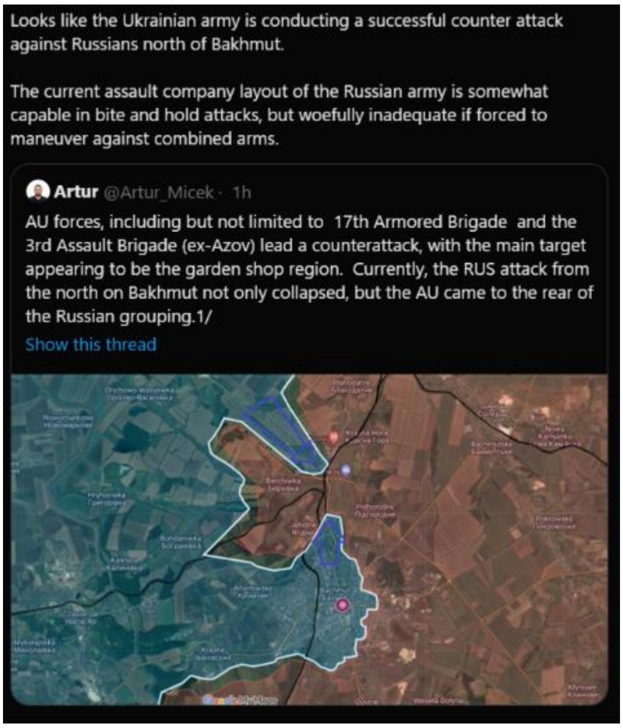
Bakhmut merchant.jpg



Looks like the Ukrainian army is conducting a successful counter attack against Russians north of Bakhmut.

The current assault company layout of the Russian army is somewhat capable in bite and hold attacks, but woefully inadequate if forced to maneuver against combined arms.

Artur @Artur_Micek · 1h

AU forces, including but not limited to 17th Armored Brigade and the 3rd Assault Brigade (ex-Azov) lead a counterattack, with the main target appearing to be the garden shop region. Currently, the RUS attack from the north on Bakhmut not only collapsed, but the AU came to the rear of the Russian grouping.1/

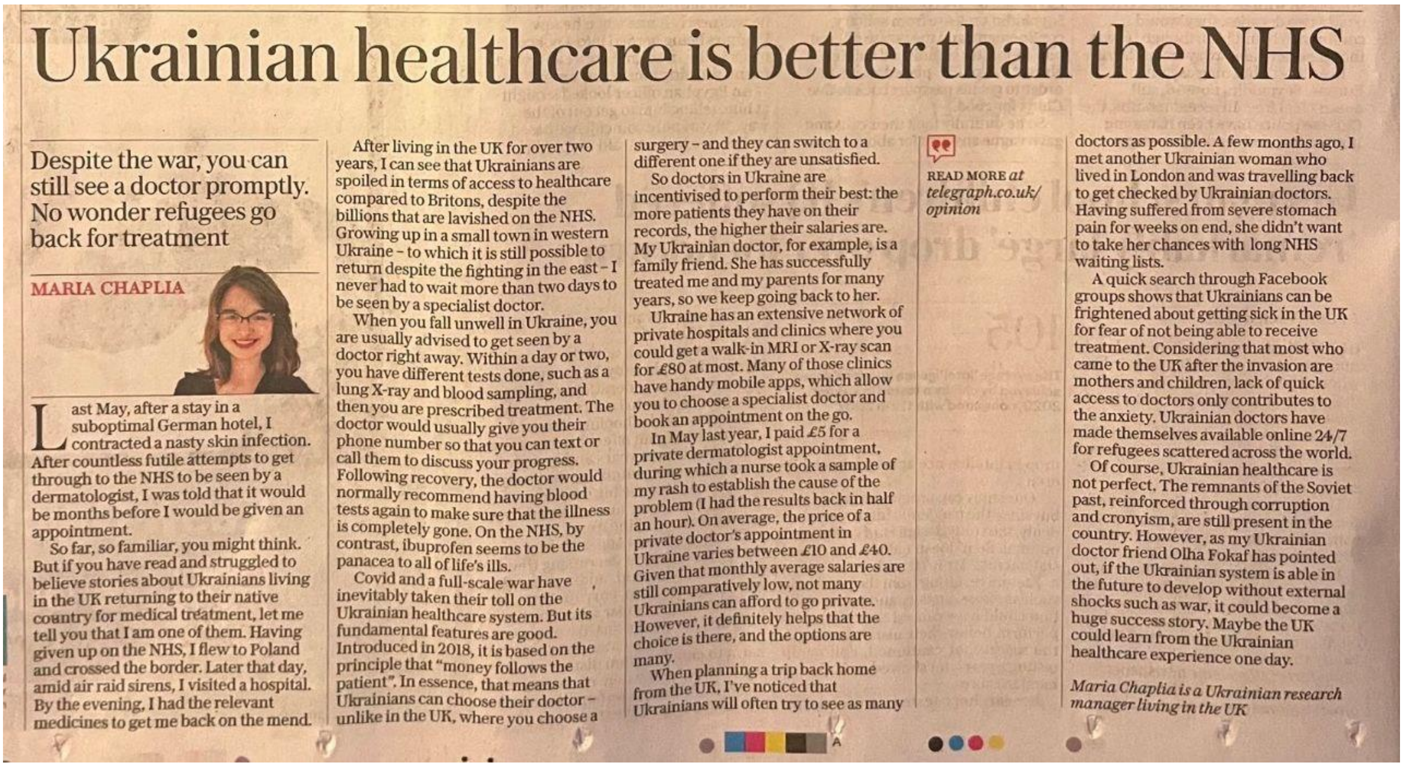
THANK YOU SPARROWS



Ukrainian healthcare is better than the NHS

Despite the war, you can still see a doctor promptly. No wonder refugees go back for treatment

MARIA CHAPLIA

Last May, after a stay in a suboptimal German hotel, I contracted a nasty skin infection. After countless futile attempts to get through to the NHS to be seen by a dermatologist, I was told that it would be months before I would be given an appointment.

So far, so familiar, you might think. But if you have read and struggled to believe stories about Ukrainians living in the UK returning to their native country for medical treatment, let me tell you that I am one of them. Having given up on the NHS, I flew to Poland and crossed the border. Later that day, amid air raid sirens, I visited a hospital. By the evening, I had the relevant medicines to get me back on the mend.

After living in the UK for over two years, I can see that Ukrainians are spoiled in terms of access to healthcare compared to Britons, despite the billions that are lavished on the NHS. Growing up in a small town in western Ukraine – to which it is still possible to return despite the fighting in the east – I never had to wait more than two days to be seen by a specialist doctor.

When you fall unwell in Ukraine, you are usually advised to get seen by a doctor right away. Within a day or two, you have different tests done, such as a lung X-ray and blood sampling, and then you are prescribed treatment. The doctor would usually give you their phone number so that you can text or call them to discuss your progress. Following recovery, the doctor would normally recommend having blood tests again to make sure that the illness is completely gone. On the NHS, by contrast, ibuprofen seems to be the panacea to all of life's ills.

Covid and a full-scale war have inevitably taken their toll on the Ukrainian healthcare system. But its fundamental features are good. Introduced in 2018, it is based on the principle that "money follows the patient". In essence, that means that Ukrainians can choose their doctor – unlike in the UK, where you choose a surgery – and they can switch to a different one if they are unsatisfied.

So doctors in Ukraine are incentivised to perform their best: the more patients they have on their records, the higher their salaries are. My Ukrainian doctor, for example, is a family friend. She has successfully treated me and my parents for many years, so we keep going back to her.

Ukraine has an extensive network of private hospitals and clinics where you could get a walk-in MRI or X-ray scan for £80 at most. Many of those clinics have handy mobile apps, which allow you to choose a specialist doctor and book an appointment on the go.

In May last year, I paid £5 for a private dermatologist appointment, during which a nurse took a sample of my rash to establish the cause of the problem (I had the results back in half an hour). On average, the price of a private doctor's appointment in Ukraine varies between £10 and £40. Given that monthly average salaries are still comparatively low, not many Ukrainians can afford to go private. However, it definitely helps that the choice is there, and the options are many.

When planning a trip back home from the UK, I've noticed that Ukrainians will often try to see as many doctors as possible. A few months ago, I met another Ukrainian woman who lived in London and was travelling back to get checked by Ukrainian doctors. Having suffered from severe stomach pain for weeks on end, she didn't want to take her chances with long NHS waiting lists.

A quick search through Facebook groups shows that Ukrainians can be frightened about getting sick in the UK for fear of not being able to receive treatment. Considering that most who came to the UK after the invasion are mothers and children, lack of quick access to doctors only contributes to the anxiety. Ukrainian doctors have made themselves available online 24/7 for refugees scattered across the world.

Of course, Ukrainian healthcare is not perfect. The remnants of the Soviet past, reinforced through corruption and cronyism, are still present in the country. However, as my Ukrainian doctor friend Olha Fokaf has pointed out, if the Ukrainian system is able in the future to develop without external shocks such as war, it could become a huge success story. Maybe the UK could learn from the Ukrainian healthcare experience one day.

Kiev said that Ukraine does not need old Mirage 2000 fighters

Warsaw, 21 degrees. RIA Novosti. Advisor to the Ukrainian Air Force Command Yuri Ignat said that the Ukrainian air force does not need Mirage 2000 fighters, because it is an outdated model.

"Any help is important to us, but not in the" Mirage 2000 "version ... we can't afford to take everything from the fleet today, which is irrational and exhausts the work of our people. We need to focus on one type, up to two multi-task aircraft... "Mirage 2000" is an outdated model, "said Ignat during a briefing that broadcast the UkrinformTV YouTube Channel.

Earlier, the head of the French Ministry of Defense Sebastian Lecorn confirmed that France is conducting talks with Ukraine regarding the possible training of Ukrainian pilots in Poland. The minister also reminded that France has repeatedly stated that "there is no taboo" regarding possible supplies of military aircraft to Kiev.

There are currently 96 Dasso Rafal I 95 Dasso Mirage 2000 in the ranks of the French AIR forces. Another 40 fighters belong to the French Navy. In the armed forces of France there is a program replacing the outdated "Mirage", which are gradually being withdrawn, the more modern Dasso "Rafal". 12 end-of-life Dasso "Mirage" fighters, according to French military specialists, may be handed over to Ukraine. Denmark will hand over 19 F-16 fighters to Ukraine

I mean, yeah. That's not really their fault. This is on us, if anything. But it seems that when we're in the presence of the female gender, we just stop functioning.

I've been smoking chocolate. Shit honestly feels like crack. You just get raw chocolate and grind it up very fine and put it in a joint or a crack pipe

I don't even have a title for how stupid this is...

A student at my school today brought in some Uranium to show his science teacher. Actual, certified, in-a-lead-box-with-☢-on-it Uranium. For some reason, the science teacher didn't confiscate it or inform admin, so of course, during lunch, one of the kid's friends ate it.

That kid is spending the night in the hospital.

I work in a high school.

I literally don't even know anymore. Like, nothing will ever surprise me now.

This is my yellowcake project, chemistry has been a hobby of mine for almost 5 years now, I live in an area where uranium mining once flourished. The industry has since left the area leaving me to pick through tailings and recover some spicy rocks. I ground those rocks into a powder and have begun dissolving them in various acids. The tailings are pretty low grade so I used quite a lot, not sure how much product ill get at the end but its a fun project nonetheless. Here is the mix about an hour after adding maybe 200ml of RFNA. Since I don't know the chemical makeup of the rock this has involved a lot of eyeballing. Have fun internet!

Go onto seeking arrangements websites and find gals who have multiple sugar daddies. I pay her for a month. During that month, I gather as much info on the girl (Name, Address, Employment). At the end of the month, I report her to the IRS for Tax Fraud.
The IRS classifies the following as Tax Fraud
>inflated personal or business expenses
>non-filling & failure to pay taxes
>unreported income
When she is prosecuted for tax fraud, the whistleblower gets between 15% to 30% of the unpaid taxes.

How in hell haven't you guys started a twitter campaign, demanding black representation in Holocaust depictions? Why can't Anne Frank be played by a black girl or presented as black? Muh Grandmammy told me that Anne Frank was a Black girl! It's my historical truth!
Honestly, it's shocking how only white jews are portrayed as victims and only white skinned people get cast as Holocaust victims.
I think it's a high time to remake Schindlers List with a black cast.

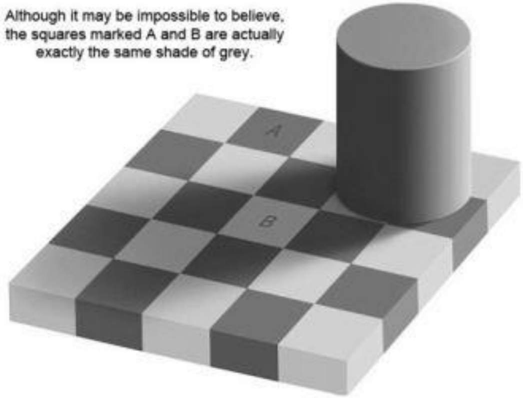
DRINK BUD LITE: THE BEER OF BUMS!

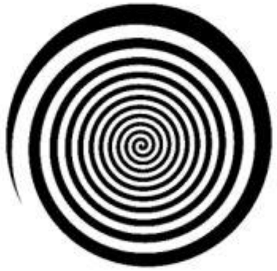
BRAIN TEASERS BRO v1.2

Although it may be impossible to believe, the squares marked A and B are actually exactly the same shade of grey.



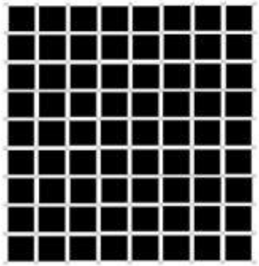
A spiral???

The figure below is actually a series of concentric circles.

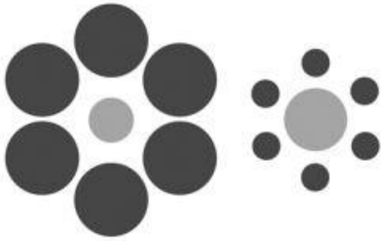


If you stare at the big black boxes, you will begin to see little gray ones at the corners.

Is it magic?



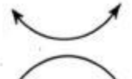
It may be hard to believe, but the two inner circles are the same size



Try to say the name of the color of each word below.

Having trouble?

red blue green
black orange
purple yellow

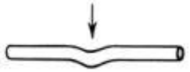


1

Note that the lines do not appear parallel

2

Note how one line appears longer

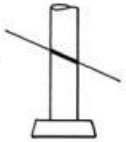


3

Note how the pipe appears bent under the arrow

4

Note that the boxes appear to be different sizes

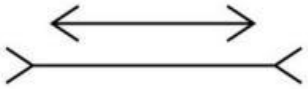


5

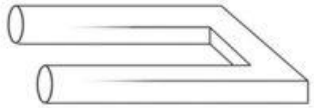
Note how the line appears thicker where it passes through the column

6

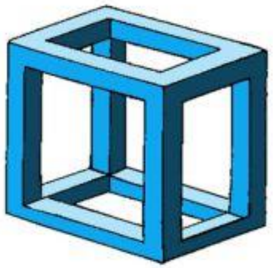
Note how quickly the figure disappears when you look directly at it



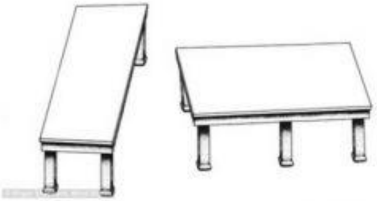
Though one of these lines appears to be longer than the other, they are in fact the same length.



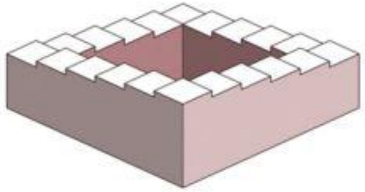
Known as "The Devil's Tuning Fork", this figure's two cylindrical prongs mysteriously transform two bars at the opposite end.



Your mind subconsciously interprets this line drawing of an impossible cube as a three-dimensional object, even though it is not actually possible for such an object to exist.

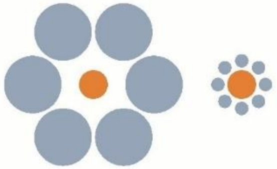


Annoyingly, the table on the right has an extra leg. Can you see it?

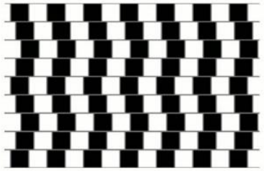


This staircase makes four 90-degree turns, yet forms a continuous loop that would not be possible in the real world.

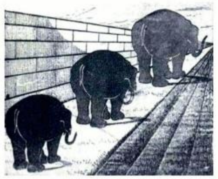
Optical Illusions



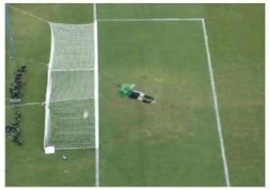
The right inner circle appears to be bigger



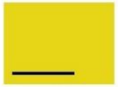
The horizontal lines look slanted



The elephants seem to be of different size

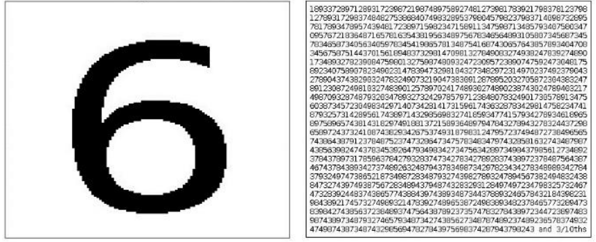


The ball appears to be in the goal.

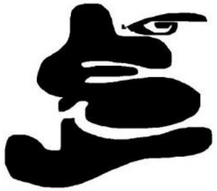


Which line is the largest?

Optical Illusion



Which one of these numbers is bigger?



Is it a DUCK or a FLOWER?

Though not strictly an optical illusion, the Isihara Color Blindness test illustrates the variability of human perception. The numeral "82" here is clearly visible to viewers with normal color vision.

Annoyingly, the image in the rectangle above disapears if you try to look directly at it.

One time I perpetrated a reality glitch on my gf.

>Be in college
>Walk gf to bus stop that takes her to the building her classroom is in. (It's a big college.)
>She gets on bus.
>I start sprinting towards a bike I had placed hours earlier at a bike rack.
>Look behind me as I ride away, bus doesn't leave until about 30 seconds after I take off.
>Make it to the building (1 mile from where I started)
>Quickly lock bike up and go just inside the doorway of the building.
>See bus approaching.
>Walk outside
>Just happen to run into gf
>Say hey, what's up?
>She is visibly shaken, and asks how I got here.
>I explain that I had to use the building's computer lab after class and was just leaving.
>She says she was just talking to me 3 minutes ago.
>I just roll my eyes, chuckle and walk away.
>Later learn she had a panic attack and threw up in the bathroom.
>I haven't told her what really happened to this day.

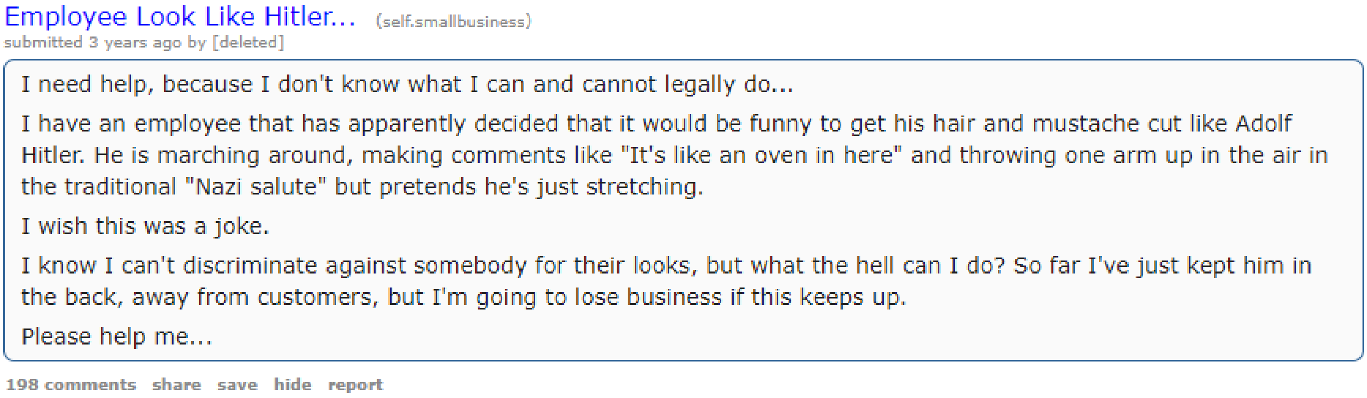
Q. Hold on one sec.

Wait, are you telling me that Stephen Hawking frequented the island for pleasure?

A. Yes, Jeffrey loved to have intellectuals visit the island so he could reward them for their hard work for humanity and for other darker reasons.

Q. Did Jeffrey ever talk to you about Stephen Hawking's proclivities?

A. Yes, he liked watching undressed midgets solve complex equations on a too-high-up chalkboard.



Employee Look Like Hitler... (self.smallbusiness)
submitted 3 years ago by [deleted]

I need help, because I don't know what I can and cannot legally do...

I have an employee that has apparently decided that it would be funny to get his hair and mustache cut like Adolf Hitler. He is marching around, making comments like "It's like an oven in here" and throwing one arm up in the air in the traditional "Nazi salute" but pretends he's just stretching.

I wish this was a joke.

I know I can't discriminate against somebody for their looks, but what the hell can I do? So far I've just kept him in the back, away from customers, but I'm going to lose business if this keeps up.

Please help me...

Sex is fucking disgusting. I was curious and hooked up with this attractive guy I met online. I went in expecting it to be romantic and magical but instead it was gross and awkward. His lips tasted awful and so did his dick. Oh and don't even get me started on the smell. Idk how girls are expected to like this if I were female I'd probably kill myself.

You will never be a real great power.
You have no historical accomplishments.
You have no modern military.
You have no future.
You are a degenerate kleptocracy twisted by vodka and corruption into a crude mockery of a political system.
All the validation you get is two faced and half hearted behind your back people mock you.
Your adversaries are disgusted and ashamed of you.
Your allies laugh at your pathetic displays of strength behind closed doors.
Nations are utterly repulsed by you.
Thousands of years of civilization have allowed countries to sniff out frauds with incredible efficiency.
Even when you have managed to pass, you looked uncanny and unnatural to other nations.
Your political structure is a dead giveaway.
And even if you manage to get a successful western company to invest in you, he'll turn tail and bolt the second he gets a whiff of your deranged violent ambitions.
You will never be happy.
You wrench out a fake smile every morning and tell yourself, Russia stronk but deep inside you feel the demographic collapse creeping up like a weed, ready to crush you under the weight of your own mediocrity and despair.
Eventually it will be too much to bear.
You'll pack up the conscripts, unleash the propaganda, write your rebirth of an empire victory speech and plunge into a country you should steamroll in days but winds up destroying the last shred of your national dignity.
The rest of the world will witness this heartbroken but relieved.
They no longer have to pretend you are a country worth respecting.
They'll financially bury you to help hasten the inevitable, and every passer by for the rest of your existence will witness how little you actually contributed to this world.
Your civilization will collapse and be assimilated into other states and all that will remain of your legacy is a few paragraphs in a history book detailing all the genocides purges, poverty and suffering you created while threatening everyone with nuclear annihilation.

Not sure why your height is important, but his body is in Lake View Cemetery, Seattle.

Maybe you're considering a shovel appropriate to your height?

Men are meant to sleep on the open steppe, a wolf and steel at their side, wind raking across the glowing embers.

Not curled in a rabbit-hole like fish stinking women, warmed by the heat of their own farts.

The wind calls to a man from across mountains, across oceans, from across the endless dome of the sky.

Never trust a man who doesn't own a fan, when you're not looking he will try to suck your dick.

My earliest memory is the time my mom blew up a pressure cooker full of beans on the stove. I was maybe a year and a half or two. I didn't think we could form memories that young. I don't remember it vividly, just fragments. I remember a brown, dripping circle on the ceiling, and I remember my mother carrying me out to the back patio. It was raining. I also remember it in third person, which confuses and slightly concerns me.

Classic sign of an imparted memory. Means you are a clone. Most likely the real you died long ago. Shame too since clones don't have souls.

Well. I hope I know what I'm talking about, otherwise I'm going to get btfo in an argument.

Here's the thing, we call it "gas" because the petrol turns into gas once the engine runs it.

It's just a shortened version to make it simpler, like 'sup instead of what's up or cup o' joe instead of cup of coffee.

here in Russia we have an anecdote since Cold War era. CIA trains a super duper spy to illegaly infiltrate into Russia. 5 years of exhausted training, giga CIA veterans teach him, he masteres Russian language better than his own. the D day. they HALO jump him near by one remote village in Sibera. he's wearing 100% authentic local clothes / outfit, comes closer the village and meets some old babushka. speaks in 100% local accent:
- Hey, babushka, how can I..
- Spy! Spy! - she yells immediately. - Get him! Its ametican spy!
the guy gets captured. frustraited af. asks the babushka:
- HOW? How could you tell???
- Son, - she puts on the smile. - Look in the mirror. You're a nigger.

You will never have a real victory. You have no triumphs, you have no honor, you have no accomplishments. You volunteered to join a failed organization twisted by Zionism and the profit motive of the military-industrial complex into a crude mockery of martial perfection.

All the "support" you get is two-faced and half-hearted. Behind your back people mock you. Your civilian population is disgusted and ashamed of you, your "allies" laugh at your failed campaigns behind closed doors.

Guerrillas are utterly unafraid of you. Thousands of years of warfare have allowed guerrillas to sniff out military incompetence with incredible efficiency. Even battles you "won" look fleeting and inconsequential to a guerilla. Your casualty aversion is a dead giveaway. And even if you manage to bomb a village, its inhabitants pick up arms the second they gets a whiff of your cowardly, doomed occupation.

You will never be victorious. You beg Congress for additional spending every single year and tell yourself it's going to be ok, but deep inside you feel the casualty count creeping up like a weed, ready to crush you under the unbearable weight.

Eventually it'll be too much to bear - you'll open negotiations, set a timetable, withdraw, and abandon massive stockpiles of weaponry. The guerrillas will capture your local allies, overjoyed and relieved that they can jail or kill them at will. They'll drape the capital city with a flag flown by your enemies, and every passerby for the rest of eternity will know your military failed there. Your veterans will seethe and go back to homelessness and drug addiction, and all that will remain of your legacy are some Hollywood movies that are unmistakably inaccurate.

This is your fate. This is what AIPAC and Lockheed Martin chose. There is no turning back.

America is the greatest country on earth.

@ColmanOfGuaire

The Afghan war was a struggle between different values. On one side you had deranged fanatics who forced women to cover their faces and locked them in their homes, chopped off kids' body parts, and placed dissidents in solitary confinement. But the Taliban were no angels either.

Founded by heretics.
Built on a genocide.
Baptised in a civil war.
Governed by Masons.
Destroyer of countries.
Giver of embargoes.
Exporter of degeneracy.
Killer of millions.
Home of Satan.
This country was a mistake of the human kind.
A deadly infection festering over the civilizations that built the world.
A sick experiment aimed to find the very lousy bottom of the human nature.
You, damned country, haven't failed once again to show your nature, to infect the world, to give the only thing you can give: evil, because it is the only thing that flows in your black veins.

What would you do?

because of this fact.

probably ever will, please live and find and marry me and we can have half self-hating children together, no matter which flavor of racist they grow up to be.

My life has improved a lot since I started thinking of life like a video game, by which I mean not taking anything personally. My body is not me, it's just some random character that spawned on some random planet. My parents and my family are not special, they're just some random characters my character lives with. I'm a lot more relaxed and just having fun now. You should try it

People forget the ideas of Diogenes regarding body and daily livelihood. Like most ancient philosophers he was fit as fuck, but only ate enough to sustain himself, he walked naked because he wanted his body to be able to resist any kind of heat or cold, rain or sun. He refused to use a lantern because he wanted his eyes to be able to see in any kind of darkness. He basically only lived with the bare minimum.

There is this story about Diogenes drinking water with a plate in a fountain, but then a little kid came and used his hands to drink water from the fountain. Diogenes realized how stupid he had being until that moment, broke the plate in the ground and cursed all the gods.

He also had his ways to get money. He used to stand near whorehouses, and whenever someone came to a whorehouse he started yelling "HERE COMES ANON TO THE WHOREHOUSE AGAIN! ITS THE THIRD TIME THIS WEEK" and stuff like that. He would only stop if you gave him money, and when he had enough money, he would go to the whorehouse himself.

Truly one of the greatest men who ever lived.

The sex positive feminist is immunized against all dangers: one may call her a thot, whore, egirl, slut, it all runs off her like water off a raincoat. But ask about her relationship with her father and you will be astonished at how she recoils, how injured she is, how she suddenly shrinks back: “I’ve been found out!”

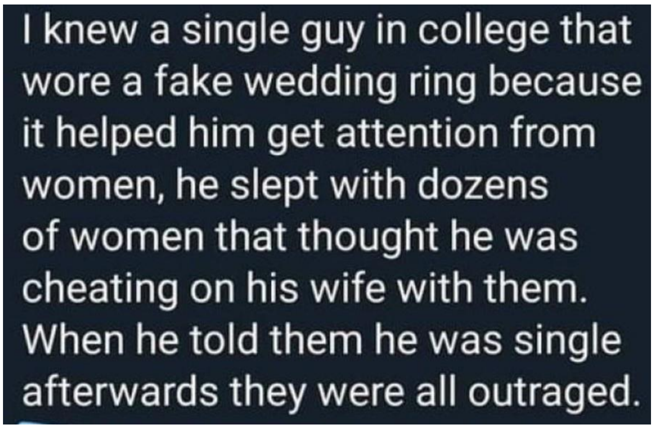
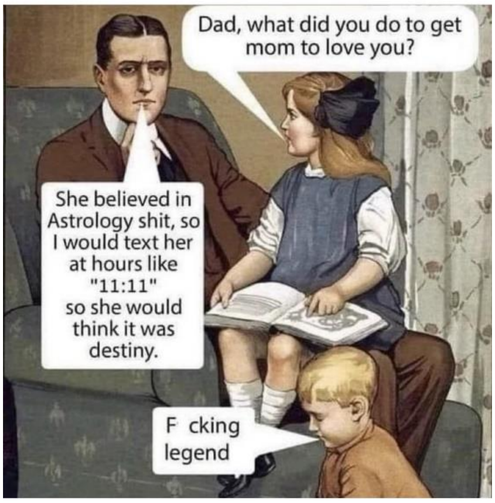
Gen Z women using the weirdest logic to cope with being sluts.



I knew a single guy in college that wore a fake wedding ring because it helped him get attention from women, he slept with dozens of women that thought he was cheating on his wife with them. When he told them he was single afterwards they were all outraged.



Dad, what did you do to get mom to love you?
She believed in Astrology shit, so I would text her at hours like "11:11" so she would think it was destiny.

One of my best friends is a convicted rapist. It was BAD. He was a violent drunk fuck.

He completely turned his life around when he got out the joint and is now a turbo Christfag but he's still my friend and he means well.

He just confided to me that his victim told him she wants to orgasm and that would only be possible with him. She certainly still hates him, but wants to have consensual sex with a guy that raped her?

He has apologized to her and her family many times and now he's asking me what to do. I told him to stay away from that shit and to contact her family about it but he just wants it to go away.

I guess my question is what the fuck is wrong with women?

A women only firefighters conference in Canada started a controlled burn to prove they were "just as good as the MEN!!!!" The controlled burn broke containment and is now a raging wildfire, the conference itself is currently in the process of purging proof of it's existence from the internet.

Bhumika Goyal, age 22, of India, has had more than 340 patches accepted into the Linux kernel – an accomplishment that contributed in no small part to her receiving one of two Linux Kernel Guru scholarships from The Linux Foundation.

Goyal served as an Outreachy intern earlier this year, focused on the Linux kernel, where she worked on securing the kernel from surface attacks by making the kernel structures read-only. Since her internship, Goyal has continued this work with the support of The Linux Foundation's Core Infrastructure Initiative.

"Having contributed to the kernel for a year now, I have developed a keen interest in learning the internals of the kernel," Goyal explained in her scholarship application. "This training will definitely help me to develop my skills so that I can contribute to the kernel community more effectively." Her goal is to become a full-time kernel engineer after completing this current project.

How much dopamine does an activity release?

Various activities cause the brain to release more dopamine than usual. Enjoying food brings a 50 percent boost to dopamine levels in the brain, for instance. Video games and sex also increase dopamine, and drug use does so significantly. It's not reasonable to equate the brain response to drug use with that of video games.
